Hello All! As most of you know, we had a theft (actually two thefts), of electrical equipment at the Griffith Park Artificial Turf Field. Those incidences have rendered the field unusable at night. This particular field is used 7 days per week (including the evenings). Since the original outage (which was discovered around May 13th or 14th), we have had to cancel ALL night time Municipal Sports Soccer League games and all night time permits. We are currently in the middle of a soccer season and we play at that location 6 nights out of the week.

As you can imagine, we are pretty desperate to be able to resume games there. The job appears to be quite large and I know that Carlos has spoken with Ramon and Darryl about the issue. I am emailing now to see what can be done, and how quickly it can be done. It seems like it might be a job for an electrical contract due to the emergency nature and the extend of the issue?? I know we are very close to the end of the fiscal year and that might pose an additional stumbling block.

I am off on furlough next week, but am hopeful that this email will get the ball rolling towards a solution of some sort. Can anyone help us get this resolved? We would be so grateful for any/all help!!! Carlos has been great about keeping us up to do date, and actually he is the one that discovered the thefts (we just knew the lights weren't working). Thank you Carlos! And thanks to everyone else (in advance) for your assistance with this emergency situation.

p.s. While I am away, Juan Aynat and Steve Cline can be contacted for anything you may need from Muni (they are both cc'd).
